

# RESERVA ESTATES

## Reserva Estates HOA 2017-19 Elected Board Officers

Tom Green, President

**Professional:** Founder and owner of TJ Green Associates LLC, a 16-year-old company that provides teaching and consulting services worldwide in the field of microelectronics packaging [www.tjgreenllc.com](http://www.tjgreenllc.com). Tom earned a B.S. Materials Engineering from Lehigh University (1982) and Masters in Engineering Administration University of Utah (1985). He is a retired US Air Force Lt Colonel with 28 years of total service.

**Volunteer:** Very active as a volunteer in the International Microelectronics and Packaging Society (IMAPS). Held past officer positions at the local, regional and national level; currently responsible for organizing the Professional Development courses for the National symposium. Reader at St. Anne's church of Bethlehem PA, and organizer of the Green family reunion every two years (125 people).

Doug Bulger, Vice President

Doug started in the upstream side of the oil and gas business for Shell in a variety of engineering assignments; facilities design, construction and operations of production and processing facilities. Subsequently, as a Corporate Strategies Advisor, he coordinated activities and studies in strategy development, competitive positioning, acquisitions and then as Manager, Corporate Restructuring in HR. He was then promoted as executive to lead trading organizations in Germany and Canada. Doug opted for early retirement in 2005 to consult for PIRA Energy Group in New York as Managing Director. In 2012,

# RESERVA ESTATES

Doug joined Canada Hibernia Holding Corp as Vice President of Marketing and Transportation. He has volunteered for the NY Central Park Skate Patrol, Calgary Chamber of Commerce, and is Past President of his local community ice hockey association and water cooperative. Doug is currently Chair of the Construction Committee of Costa Esterillos Estates Home Owners Association.

Becki Clarke, Secretary

**Professional:** Becki started her work life in high school as a secretary but her professional life didn't really begin until she was 32 when she joined the neophyte world of cold typesetting, learning by doing. She worked in the newspaper industry for 26 years, gradually performing, managing and directing all facets of software applications from design, testing, documentation, training, installation and on-site customization worldwide. When that industry collapsed in 2008 she studied medical coding and billing, anatomy and physiology.

**Volunteer:** Treasurer, Friends of the Council on Aging, Lexington, MA (1995-2003); Treasurer, METCO College Scholarship Fund of Lexington (since 1995); President, Bettie Clarke Scholarship Fund (since 1995); Medical Advocate for the Merrimack Valley Elder Services (since 2008); general volunteer, Winchester Hospital (since 2008). Three million hours devoted to CRE Owners Group since 2010. (Let's see who is reading this.) Director of data collection and management for all sorts of smaller organizations, including her ever-expanding family reunions.

Becki loves to research, to document (anything, just ask!), and to help right wrongs. She is an avid genealogist, loving nothing more than getting entangled in the lives of those who came before her.

# RESERVA ESTATES

John Granmo, Treasurer

I was born and raised in northwestern Montana. I attended Humboldt University in Northern California for two years, pursuing a diving career. In 1979 I began a commercial diving tech school at Los Angeles harbor. Upon completion, I relocated to southern Louisiana and began a career in the oilfield diving industry which lasted seven years. An industry slowdown and some safety concerns led to returning to Montana and attending Montana State University from which I graduated 1989 with a BS in mechanical engineering. I then worked at Boeing in the Seattle area; after a number of layoffs and re-hires, I took the retirement option in 2012, moving to my current location Kellogg, Idaho, in the northern panhandle.

Having made various property investments over the years, I purchased Reserva Estate lots #240 and #241 in July 2007. Both lots were paid in full in 2009 and I was fortunate enough to obtain clear titles in 2015 with much assistance from Juan Alfaro. Since then I have made frequent visits to the project and am very familiar with the entire development.
